Jane Richards

“Haystack Glow”

$400

**Image Description:** Was driving along the Oregon coast and decided to stay in Cannon Beach for the night. It was cold and windy and there was a very heavy fog bank. Didn't expect a good sunset, but then the sun peaked through to give this golden glow. I waited until I could capture the illuminated haystack without people on the beach and when the seagulls flew in just the right positions to give depth to the image.

**Location of Image:** Cannon Beach, Oregon

**Type of Camera and Lens Used:** Nikon D850 with Tamron SP24-70MM f2.8 lens

**Camera Settings Used:** f 11.0, 1/80, ISO 320

**Artist Statement:** Jane commenced her journey into the photographer’s world approximately 10 years ago with the encouragement of her husband who is an avid and accomplished photographer. Since that time, she has enjoyed the challenges and wonderment of photography. Over this period, Jane’s photography has been a finalist and exhibited in various competitions: Lone Tree’s Exploring the Light, Eye of the Camera, Greenwood and Beyond, Minneapolis Arts, Photographer’s Forum magazine and several international competitions. Awards include first and second place at Eye of the Camera, second place at Exploring the Light and honorable mention at Greenwood. Her photography has been exhibited in Denver, Minneapolis, Berlin (Germany) and Athens (Greece), and published in various competition photo books and Photographer’s Forum magazine Best of Photography 2016. Jane’s photography interests have increased from a hobby to a passion and she continually raises the bar for expressions, creativity, subject matters and use of the magic of light.

**Website/Social Media Accounts:** None
