**Artist Statement:** I didn’t wake up one morning and decide to become a photographer and digital artist - I just kind of fell into it. It has progressed into so much more fulfillment than I could ever imagine. Photography isn’t just about taking a picture; it’s how I see the picture through the lens and the true art of my photograph is what I see in my editing. I can make a photograph look a 100 different ways, but my enjoyment is bringing the photo to life in a more interesting way. I’ve never aspired to be a professional, but a hobbyist always, with aspirations to do professional looking photographs and digital art.
